outco  
Homoeopathy  
reflected into  
patient care modalities  
of medical disciplines.

Aditya Insitute of Homoeopathic Medical Sciences (AIHMS) is an innovative venture established almost a decade ago by a group of Homoeopaths, who were contemporaries in medical colleges. AIHMS stands tall on its cause for humanity, establishing Homoeopathy as the safest and most natural form of medical treatment in the restoration of health of the sick and the suffering.

The first Multispecialty Clinics under corporate governance in Kerala and the second in India, AIHMS Homoeopathy rolled out 24 specialties 8 years ago to help the ailing masses across Kerala and the Middle East. Today, AIHMS is undoubtedly, the prime referral standard to primary, secondary and tertiary medical care in the entire Homoeopathic discipline in Kerala.

The advanced infrastructure of the clinics, the high standard of resources and an expert panel of near 100 highly-qualified specialists, clinicians, researchers & International speakers makes AIHMS the preferred choice amongst patients who choose homoeopathy as their primary medical care.

The pharma alliance with Dr.Reckeweg & Co, Germany, ensures that patients are dispensed with medicines of the highest quality making AIHMS a unique vision in Homoeopathy delivering excellent results & advanced patient care standards which is the need of the hour.

AIHMS today operates across 7 centres in Kerala and the Middle East. AIHMS Academy, the academic wing of AIHMS Homoeopathy conducts regular training sessions, research programmes and organizes events in Homoeopathy for Indian and International Homoeopaths.

AIHMS prides itself on promoting Homoeopathy as a safe, effective and legitimate medical treatment as opposed to being known as an "alternative" treatment.
